

## How is the Air You Breathe?

### IS THE AIR YOU BREATHE MAKING YOU SICK?

WHAT YOU CAN'T SEE CAN HURT YOU. DO THE AIR FILTERS YOU USE CONTROL THE GROWTH OF MOLDS, POLLENS, FUNGAL SPORES, ALGAE, AND DUST MITES? MILLIONS OF THESE AND OTHER INVISIBLE BUT POTENTIALLY HARMFUL MICROORGANISMS CAN BE PRESENT INSIDE EVEN THE MOST WELL MAINTAINED HOMES. TODAY'S HOMES ARE OFTEN SEALED TIGHTLY TO CONSERVE ENERGY, BUT THE PROBLEM IS THAT THE POLLUTANTS BECOME SEALED INSIDE YOUR HOUSE TOO. EVERY TIME YOUR HEATING AND COOLING SYSTEM'S FAN RUNS, IT CIRCULATES THIS AIR THROUGH YOUR HOME. MOLD, POLLENS, FUNGI AND OTHER UNDESIRABLES INVADE VIRTUALLY ALL INDOOR AIR. THE ONLY WAY TO STOP THESE MICROORGANISMS IS TO HAVE AN AIR FILTER CAPABLE OF DOING THIS. SAME FILTERS USED IN HOSPITALS AND CLINICS.

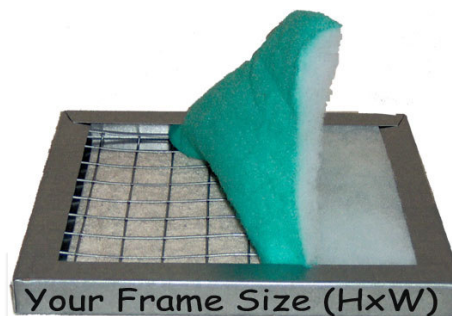

**START BREATHING CLEANER,  
HEALTHIER AIR IMMEDIATELY.  
FINALLY, AN AFFORDABLE,  
HIGH QUALITY AIR FILTER .**

### JUST LOOK AT THE GREAT BENEFITS:

- LOW RESISTANCE TO AIRFLOW—EASY ON A/C FAN
- UP TO **20 TIMES** DUST HOLDING CAPACITY OF THROWAWAY FILTERS. **SAVE MONEY AND BREATHE EASIER**
- RELIEF FROM ALLERGIES & ASTHMA SYMPTOMS
- EACH FILTER LASTS **UP TO TWO** MONTHS \*
- CONTROLS MOLD, MILDEW, ALGAE AND FUNGI.

A ONE time purchase of a **reusable** frame, then simply replace the filter media every 1-2 months.

### DUSTLOK® FILTER PAD & FRAME SYSTEM

THE DUSTLOK® FILTER PAD IS SECURELY HELD IN PLACE BY OUR 26GA GALVANIZED HOLDING FRAME. THE HOLDING FRAME SLIDES IN AND OUT OF YOUR FURNACE JUST LIKE YOUR EXISTING AIR FILTER. WHEN IT IS TIME TO CHANGE YOUR FILTER PAD, YOU THROW AWAY THE DIRTY FILTER PAD AND PUT A NEW FILTER PAD IN THE FRAME. THE WHOLE PROCESS ONLY TAKES A COUPLE OF MINUTES.

### DISTINCT DUAL DENSITY

PROVIDES MAXIMUM DUST LOADING AND DUST RETENTION FOR THE FILTER. THE WHITE, AIR-ENTERING SURFACE IS DESIGNED FOR DEPTH LOADING, WHILE THE GREEN, ORANGE OR BLUE DENSE DOWNSTREAM SIDE, PREVENTS DIRT FROM PASSING THROUGH THE MEDIA.

\* **COMMERCIAL APPLICATIONS EXCLUDED**

### AIR FILTRATION SYSTEMS

- \* Customized to Meet You're Needs
- \* High Performance Filters
- \* Lower cost to operate
- \* Longer service life-less changeouts
- \* Custom Design and Engineering
